## LATEST FROM MAUNA LOA

### NEWS BROUGHT BY THE UPOLU THIS MORNING.

Report of Flow Toward Hilo and Another Into Kau is Confirmed—Smoke Visible From Honolulu Today.

The Upolu arrived this morning from Kohala and Kona with later news of the volcanic outbreak on the big island. Near the shore at Kohala the light could scarcely be seen at all on account of the intervening mountains, but about ten miles out to sea the sight was grand. People make trips out every night in small boats to witness the spectacle.

It is reported positively by the Upolu that there are two lava streams from Mauna Loa, one moving down the old 1881 route toward Waialeale and Hilo, and the other going over on the other side into Kau. Former reports to this effect were largely surmise.

A story gained currency about town this morning that the flow on the east side was within five miles of Hilo. This rumor cannot be verified and is probably a canard.

All over Hawaii the greatest excitement prevails and people are rushing from every direction to the scene of the disturbances.

The Upolu reports that parties are organizing and leaving Kohala and the Kona every day for Kau and Hilo. Most of these excursionists are going horseback overland. Some conveyances have been called into service and readily get \$25 a man for taking passengers to points of vantage.

The Upolu had a fine night view of the light on her last trip up from Honolulu. On the way down last night the sky was clouded and the scene less brilliant. Withal, the glare could be seen until after the vessel had passed around the east end of Maui.

The Iwalani, which came from Honolulu, heard very little of the outbreak, though the light was distinctly visible at night.

Professor Lyons telephones The Star this afternoon that a heavy cloud is hanging over the sea to the south. He says it is most probably smoke from Mauna Loa. This would indicate lively fires over there today. The professor discounts the rumor that the east flow is within five miles of Hilo. He says that on account of the roughness of the country and the forests through which it would have to travel the flow could not have arrived so close in this time.

## A WORD FROM QUARANTINE

### GEORGE CARTER TELEPHONES HIS FRIENDS

Honolulu People are Faring Well—The Accommodations are of the Very Best—Some Incidents.

George R. Carter telephones from quarantine island requesting that friends in the city feel no uneasiness whatever about the Honolulu party there. All are well and are most comfortably quartered. They are segregated from the steerage passengers by the vessel. Continuing Mr. Carter said:

"I was astounded to find things so neat and clean and the accommodations on the island of such a high order. Compared to Japan the accommodations here are palatial. Superintendent McVeigh and the officials of the Board of Health are untiring in their efforts for our comfort."

"I was astonished at the perfection of the system over here. From Honolulu I had formed a general idea of the situation, but knew not of the half and do not believe one man in a thousand knows how perfectly the Board of Health has matters in hand. The disinfecting plant on the island is the most complete arrangement I ever saw in my life. Nothing in the Orient can be compared to it. From the time a passenger lands on the island he is carried through a regular sanitary process that is at once assuring. All the methods are the most modern and approved."

"We have every accommodation afforded by a hotel. Every requirement is met and the cordiality of the officials here is something I shall never forget. We wish our friends to rest easy about us, for we are really enjoying our quarantine."

"All well on the island except a Japanese who was yesterday afternoon taken with dysentery. There was great alarm for a while, we fearing that it might be a case of plague, but such happily proved not the case. Things have quieted down and this morning all is running smoothly again. We expect to land on Tuesday."

Mr. Carter told a story of a rat calling at his room this morning and asking for a microphone to take over to a friend at Hilo, but the telephone was so bad at the time that most of the account was lost.

### THE JUDD BOYS.

A. F. Judd, Jr., son of the Chief Justice, and his brother, James, are expected by the Rio tonight from the East. The former will be married on the 21st to Miss Hartwell, daughter of Judge Hartwell. He will practice law here, while James and two of his younger brothers who arrived in the Australia Monday, will go back to college in the East after vacation.

### VACATION OF LAWYERS.

The summer vacation of members of the bar of Honolulu will expire Saturday and regular work will begin Monday. The former will be married on the 21st to Miss Hartwell, daughter of Judge Hartwell. He will practice law here, while James and two of his younger brothers who arrived in the Australia Monday, will go back to college in the East after vacation.

### TO SAIL FRIDAY.

Rabbi Levy and daughter will sail by the Australia on Friday for their home in San Francisco. The former takes with him a large number of lantern views and will give lectures in San Francisco on Honolulu and the Islands.

### BANK OF HAWAII.

At a meeting of the Bank of Hawaii, Ltd., held this morning, P. C. Jones was elected vice-president to fill the unexpired term of office made vacant by the resignation of J. B. Atherton; Frank C. Atherton was elected as assistant cashier.

### POISONED BY CANDY.

A young lady was poisoned Monday by eating candy bought from one of the city stores. For a short time she suffered considerably. It is thought the poison was in the coloring matter.

### DISCUSSES LABOR.

At the Cabinet session this morning the Planters' Association asked to submit applications in July for Japanese laborers required during the quarter. It was decided to receive applications not later than the 22nd, to be acted on by the Cabinet during the month.

The application of Theo. H. Davies & Company for thirty additional Italian laborers was approved.

### ARTIFICIAL WATERS AS FACTORS OF DISEASE.

At the instance of the lacknow Cantonment medical authorities, two aerated water factories have been closed, the water having been pronounced unfit for use. It is to be hoped that the decision will induce the medical authorities in India to overhaul the aerated water factories under their jurisdiction at other stations, particularly where enteric fever is prevalent. The popularity of Apollinaris Natural Mineral Water seems to have no limits. It is obtainable in practically all parts of the world, and in New York, as in England, no social function is without "The Queen of Table Waters." The means of the assembly ball given at the Waldorf-Astoria, the Metropolitan Club dance given at Sherry's, as well as those of the Vanderbilt and the Astor balls, bear witness to the pre-eminence of Apollinaris. Indian authorities might do worse than follow the example here set them.—Land and Water, 18th February, 1899.

## FUMIGATING THE BACILLI

### IMPORTANT EXPERIMENT TO BE MADE.

Scientific Test of Effectiveness of Disinfecting Plant on Pacific Mail Wharf. Dr. Alvarez's Plan.

Scientific investigation is to be made by the Board of Health into the effectiveness of the fumigating system in use here for the disinfection of freight. In all probability the program as now outlined will be carried out tomorrow. Dr. Alvarez, bacteriologist, and Dr. F. R. Day, port physician, will have charge of the experiments.

For some time there has been doubt, not only here but in San Francisco and elsewhere, as to the effectiveness of fumigating plants as at present arranged. The matter has been up and has frequently been thrashed out in the Board of Health meetings. Yesterday the plant on the Pacific Mail wharf was inspected.

Dr. Alvarez's plan should demonstrate fully the merits or demerits of the system. He has cultures of the bacilli of cholera, typhoid, and dysentery, and could possibly appear here from the Orient. These are fully alive. A general arrangement of freight will be made up to form an average situation. The bacilli will be placed around on kegs of soil, the clothes in an old trunk, wrapped up in blankets, in bags of rice and every other conceivable place.

When all is ready the fumes will be turned on. This will continue for the usual length of time adopted for freight. When all the smoke is cleared away the two specialists will hunt up the microbes and examine each one of them through strong glasses. This will give the outward effect of the smoking and probably the result. But the doctors will not stop there. Cultures of the smoked bacilli will be attempted. If it is found possible to resuscitate them, it stands to reason that the system is defective or the length of time of fumigating insufficient.

The result of these experiments means a great deal. If the fumigating plant is effective, as it is hoped it will prove, there will no longer be any hesitancy in landing freight from a quasi infected ship. If not effective it is doubtful if any vessel with a questionable history on a particular voyage will be allowed to land freight here at all.

Dr. Alvarez and Dr. F. R. Day will report to the Board of Health at the next meeting the result of their investigations.

## MONEY FOR LOST BAGGAGE

MR. AND MRS. KAAE WANT BIG DAMAGES.

A Lady on a Kahuku Train Had Luggage Worth \$8000 Suit Against Marsh—Water Rights.

Jesse Kaae and Junius Kaae have entered suit against the Oahu Railway & Land Company to recover a large amount for baggage alleged to have been lost on the cars between Honolulu and Kahuku. Mrs. Kaae wants the sum of \$8000 and claims that her belongings were worth very nearly that much. The man states that his property was worth \$47, and he demands \$500 for damages. The suit had its parallel in another on the same line, at which time a short time ago, and still another on one of the Oceanic steamers to San Francisco.

H. J. Harrison has entered suit against Marshall Brown for the delivery of certain horses and a drag seized under a chattel mortgage. Plaintiff asks for reinstatement of the property. In case this is denied he wants \$490, being the value, and damages in the sum of \$300.

Ung Lim, et al, have brought suit against Leong Hoo, et al, on a water rights matter in Manoa. Plaintiffs complain that defendants have been taking all the water from a stream over which they held concurrent rights. Judge Perry has signed an injunction ordering defendants not to take water from the stream except between the hours of 3 and 6 in the afternoon.

W. C. Achi has entered suit against Kong Kung Fook and Mele Adams for partition of a large plot of island land held by them in which he claims an interest.

The August term of the circuit court will open on the morning of Monday, August 7.

Randolph on Commercial Paper, in three volumes, has been ordered by the law library by Chief Justice Judd, to whom the books were presented by the author. The author and Mr. Judd were classmates.

### CARD OF THANKS.

The captain and officers of the training ship Presidente Sarmiento, beg that the editor of the Hawaiian Star will express their gratitude to the inhabitants of Honolulu, for their kindness and courtesy during the stay of the Presidente Sarmiento in this port, and now await their orders for Yokohama, for which place the ship sails today. Honolulu, July 10, 1899.

### WHERE PASSENGERS REPORT.

It is at Dr. F. R. Day's office on Berea street, and not at the Board of Health office, that steerage passengers from San Francisco are required to report every morning. Steerage arrivals by the Australia have been notified personally by the port physician. So far no trouble has been met with in the matter of prompt and regular compliance.

## HAWAII PRESENTED IDEA

### CAROLINE ISLANDS BEFORE PEACE CONGRESS

Hawaiian Board Urged Purchase of Group by the United States—Negotiations and Why They Fell Through.

The purchase of the Caroline Islands by Germany is a matter of special interest to the Hawaiian Board of Commissioners. Just what effect the change will have upon the work being done in the group can hardly be foretold, though people are inclined to think the situation will be improved.

Although the fact is not generally known, the Hawaiian Board endeavored to interest the United States in the purchase of the Carolines. This was at the time of a peace conference in Paris. A strong, urgent letter was sent by an official of the board to Judge Day, calling special attention to the growing importance of American interests in the group and the work being carried on by the missions. It was urged that the United States purchase the islands from Spain.

The letter from Honolulu caused the commissioners to take up the subject of the Carolines, a matter out of the war and out of the regular line of business. At one time Spain was ready to accept \$1,000,000 for the group, with the privilege, however, of free trade there for a period of years. The latter part of the proposal could not be considered by the American commissioners, and the proposal fell through. Germany gave \$5,000,000 for the Carolines and neighboring groups, and granted the commercial privileges asked by Spain.

Rev. S. E. Bishop, W. W. Hall and others are among the number of local citizens who believe the United States missed a bargain in failing to close for the Caroline Islands. They see wonderful possibilities for those islands and believe that under American control, they would rapidly come into prominence.

An immediate effort will be made to arrange with Germany for liberal terms for the missionaries there. There was a clash sometime ago between the American missionaries and the authorities in the Marshall group.

### ANOTHER ENGAGEMENT.

Jamie Wilder Will Marry Miss Sara Harnden.

The engagement of James A. Wilder of Honolulu, to Miss Sara Harnden of Alameda, is announced. The wedding will take place at Alameda, October 3, and the young couple will proceed at once to Paris, where the groom is at present pursuing his art studies.

Miss Harnden is the daughter of F. A. Harnden, who died some years ago. Mr. Harnden was for several years bookkeeper for Wilder & Company and was a personal friend of the late S. G. Wilder, father of the groom. Mr. and Mrs. Harnden were very popular here, and took a leading part in amateur theatricals. It was Mr. Harnden who got the first comic opera produced here, Pinafore. Miss Harnden has visited in Honolulu, since the family left for the Coast, and has been the guest of Mrs. E. K. Wilder.

"Jamie" is a Honolulu boy all through and very popular. After passing through Harvard he has traveled in Rome, the Carolines, the Ladrones, China, Japan and all kinds of out of the way places, finally taking up his abode in Paris, to which place he will take his wife.

It is a curious coincidence that James Wilder and Carl Widemann were born in adjoining houses in Kukui street within half an hour of one another, and their engagements of marriage were announced practically on the same day.

A musical marvel is on exhibition at the Bergstrom Music Company. The public is cordially invited to call and see it.

"I have used Chamberlain's Cough Remedy in my family for years and always with good results," says Mr. W. B. Cooper of 12 Rio, Cal. "For small children we find it especially effective." For sale by all dealers and druggists, Benson, Smith & Company, general agents, Hawaiian Islands.

Owl lunch room is located opposite Criterion barber shop, Fort street.

### MORE OF THEM USED.

There are probably more Singer sewing machines used in the United States than of any other one make. This is a very excellent guarantee that they are one of the very best machines. The points of merit are strength, durability, easy running and simple construction. Very little mechanism to get out of order makes repair bills small. When in need of a new sewing machine examine the Singer before purchasing any other make. B. Bergeron, agent, Bethel street.
